

I travel frequently and XM Satellite Radio helps me stay in touch with what to expect from traffic and the weather and the world, things I wouldn't know or be able to receive from any other source.

As I pay for these services it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Thank you,  
Barbara Logan
